

WSW SC L0 1,0mm, 500g, SN0,7CU3,5%

Item No: T0051387899
SC L0 Solder Wire, Ø 1,0mm, 500g

Designed to improve the quality of all your welding jobs, Weller's WSW line of solder alloys increases productivity and optimizes your welding performance. The "; reduced splash"; increases safety and allows for a cleaner working area. Thanks to a 100% guaranteed continuous wire combined with a pure melting of the first metal, WSW enables durable and long-term crack-free weld joints, even on difficult surfaces

KEY FEATURES

- Diameter: 1.0 mm / 0.039 inch, Weight: 500 g / 17.637 oz
- Alloy Sn99.3Cu0.7, Flux content 3.5%
- 100% halogen free wire
- Silver free alloy = cost effective
- Guaranteed 100% continuous flux core
- Reduced Fe leaching to increase tip life time and reduce tip consumption by up to 70%.
- Good wetting characteristics
- Reduced splash of flux & No-Clean flux

TECHNICAL DATA

Length	2.4 in
Dimensions L x W x H	63.0 x 65.0mm
RoHS Compliant	Yes
Solder Wire Ø	1.0mm
Temperature Range (Depends on Tool)	227°C
UPC	037103352064
Weight (Catalog)	0.50 kg
Product Family	WSW Soldering Wire
