WXP 200 - 550°C

Item No: T0052920571N

KEY FEATURES

➕ Intelligent soldering iron 200 W, 24 V

➕ For very large components (Shielding) with high/ medium energy demand

➕ Most efficient soldering iron for WX stations

➕ Parameter memory such as standby temperatures, automatic switch-off time

➕ Reduces total costs of ownership due to motion sensor

➕ Visual process control through LED signal function

➕ Interchangeable XHT soldering tips at low cost prices

➕ Power Response heating technology with improved sensor position

➕ Fast reaction time
