

## WP120 Set

Item No: T0052919499N

Soldering iron WP 120 with safety rest

## KEY FEATURES

- + Soldering Iron 120 W, 24 V
- + For small and large components (High Mass) with high energy demand
- + Allrounder for WT stations and WR rework stations
- + Interchangeable XT soldering tips at low cost prices
- + Power Response heating technology with improved sensor position
- + Fast reaction time

## TECHNICAL DATA

|                                                 |                                                    |
|-------------------------------------------------|----------------------------------------------------|
| Approximate Heating Time (50-350 °C/120-660 °F) | 14 sec                                             |
| Barrel                                          | T0058763709 T0058765802                            |
| ESD Safe                                        | Yes                                                |
| Power                                           | 120 W                                              |
