

ESD Connection Set

Item No: T0051403899
Antistatic ESD grounding wrist strap set

The antistatic ESD grounding wrist straps from Weller can be easily adjusted and are impressively comfortable to wear on the wrist, even over long periods. The antibacterial silver in the strap ensures a high standard of hygiene; ESD wrist straps can even be washed. The incorporation of silver/carbon in the fabric guarantees an optimum discharge of electrical charges and the safe and proper processing of sensitive electronic components. The set comprises a wrist strap and a 2.4 m coiled cord.

KEY FEATURES

- ANTISTATIC: prevents the generation and transmission of static electricity in dry environments
- LEAD VALUE / RESISTANCE:
  Band: greater than 10^7 ohms, no resistance;
  Cable: approx. 1 MΩ protective resistance
- ADJUSTABLE SIZE: comfortable hand strap (20 mm wide), size can easily be adjusted as needed
- MAXIMUM PROTECTION: 360-degree conductive contact, with silver and carbon fiber components for better conductivity
- HYGIENIC: washable, with antibacterial silver interior
- TESTED: Complies with DIN EN 61340-5-1 and tested according to BGI818, CE
- FLEXINLE: 2.4 m length (coiled cord)
- SAFETY: Secure press stud for maximum safety when connected to the soldering mat. Giving extra strong stud fastening capability from hand to matt
- COMFORTABLE TO WEAR: Inside lined with soft conductive rubber
