

Particle Filter EPA E10 and AC foam for gases for ZeroSmog Shield

Item No: FT91000046

Welcome to a new era in electronics manufacturing, where clean air is not just a perk, it's a necessity. It's the driving force behind increased productivity, healthier workers, and a better bottom line. The state-of-the-art ZeroSmog Shield solder fume extraction system is designed to revolutionize your individual workstation. Breathe clean air at your workbench while you work on your next soldering task with the Weller ZeroSmog Shield, a true filtration unit that keeps your work environment clean and fresh. Its compact design, which can be stacked with soldering stations, helps maximize your workspace. With the ZeroSmog Shield Pro, you can breathe easy and focus on your soldering.

KEY FEATURES

- + EPA E 10 filter
Combined filter, particle and gas
- + Particle filter
85% particle removal
- + Gas filtering
- + From activated carbon impregnated foam
- + Large filter surface area

TECHNICAL DATA

Dimensions L x W x H	140 x 140 x 23 mm (5,5 x 5,5 x 0,9 Inch)
UPC	037103376060
Weight (Catalog)	20 g
Product Family	Zero Smog Replacement Filters
