

## Butane Fuel Refill

Item No: WLBUF110ML
Weller® Butane Fuel Refill

Weller Butane Fuel Refill is designed to use with all leading butane soldering irons, torches, butane lighters, and flex necks. The cap stores tips that support butane fueled soldering irons, torches, and lighters. The premium fuels is low in non-volatile contaminants, which can cause burner valves to clog, affecting flame height and function.

## YOUR BENEFITS

- Cap Tip Storage
  Butane fuel with tips that fuels all leading butane lighters and kitchen and hobby torches
- Premium Fuel
  Low in non-volatile contaminants, which can cause burner valves to clog, affecting flame height and function
- 2.1 oz Size
  The fuel has a net weight of 2.1 oz/60 g/110ML
- Fueling Butane Appliances
  Set flame adjustment to low setting. Insert fill stem directly into fill valve and press down for 3 to 4 seconds. Repeat three times. Back spray indicates appliance is full.
- Compatible with
  WLTBUM2, WLBUK75, WLBU75, PSI100K, WSTA3, WSTA6, P2KC, P2C, ML200, ML500
