Cordless Pyropen Butane gas Soldering Iron WP60 Kit

The Butane gas-powered WP60K Pyropen soldering iron from Weller comes in a compact form factor and offers soldering and hot air functionalities. Its ideal to for soldering on the go and helps to complete soldering tasks anywhere, without the need for a mains supply or an obstructing cable. Filled with butane gas the soldering iron allows for approximately one hour of usage. The gas level view enables the user to monitor the fuel level in the reservoir to ensure efficient refueling before the tank is empty. The refilling with Weller butane gas is quick and easy and done in only a few seconds.
