

## WX 2012 Ultra MS

Item No: T0053422672

Weller WX stations make the manual soldering process safer, a crucial factor in the automotive, aerospace and medical industries. This station is especially designed to meet MIL-SPEC/IPC standards to save sensitive components from electrical overstress by using Weller RT MS soldering tips. Weller offers a wide range of RT MS tips to solder components with the size from XL to XXL. A safe soldering process is guaranteed by many features of the WX station like temperature and tool locking, and tool-specific temperature settings. Integrated USB ports provide the WX bench top control units with a connection to and control over soldering fume extractors, pre-heat plates and programmable logic controllers. Firmware updates and registration are quick and easy by using USB sticks. Parameters such as standby temperatures and automatic switch-off time can easily be stored in the soldering iron. Parameters only need to be stored once the MS soldering iron can then use them with any WX station.

## KEY FEATURES

- + For high precision heavy duty soldering applications. Component size XL to XXL
- + Station works as a benchtop controller to control tips, tools, fume extraction and peripheric tools
- + 2 channels for simultaneous work of 2 tools with intelligent tool detection
- + Extremely fast heat-up time: 7 Sec.
- + Triple awarded active tip technology are fully compliant with MIL-SPEC / IPC Standard
- + Intelligent iron with motion sensor and integrated data storage
- + Toolless tip change
- + Traceability ready
- + 2-in-1

## TECHNICAL DATA

Width	154.0 mm
Height	135.0 mm
Length	174.0 mm
Dimensions L x W x H	174.0 x 154.0 x 135.0mm
Temperature Accuracy °F	±9 °C
Temperature Stability °F	±2 °C
UPC	4003019444465
Weight (Catalog)	3.40 kg
Product Family	WX Line Soldering Stations
