

## **WE1010 Shield Kit 230V**

Item No: T0053298391

Soldering Station WE1010 and  
ZeroSmog Shield Bundle

For a seamless and health-conscious soldering experience, Weller bundled its best seller WE1010 soldering station with the new ZeroSmog Shield single filtration unit. This easy-to-use soldering bundle not only ensures precision in your soldering projects, but also prioritizes your health. The advanced filtration system efficiently captures and removes harmful fumes and particles, protecting the operator's respiratory health. With adjustable temperature control and an ergonomic design, this soldering station offers ease of use, making it ideal for beginners and seasoned professionals alike. Get your project soldered and breathe easy.

## KEY FEATURES

- + 85 W soldering station with fast heat-up and recovery times
- + 70 W Soldering Iron with toolless tip change for more precision
- + Digital LCD screen and easy navigation for temperature and includes stand-by mode
- + Suitable for a wide range of prosumer and professional soldering tasks
- + Low maintenance extraction unit with easy to change filter
- + Work light for an optimal work environment
- + Stackable with WE1010 and easily moveable
- + Highly Cost Efficient Bundle
- + Efficient airborne particle and gas filtration
- + Scope of delivery: ZeroSmog Shield fume extraction unit, WE1010 soldering station, WEP70 soldering iron, PH70 safety rest

## TECHNICAL DATA

ESD Safe	Yes
Interface	No
Noise level (distance 1 m) dB(A)	50 dB(A)
Power	85 W
UPC	037103375995
Voltage	230V
Product Family	WE Line Soldering Stations
