

## RTPS 001 C X MS

Item No: T0050110799 RTPS Pico Soldering tip, conical bent 0.1 mm, MIL-SPEC

## **KEY FEATURES**

- For all Nano/Pico Applications with smallest Component Sizes:

  Smart high-performance tips for the smallest component work under the microscope: 0402 to 01005 (XS to S)
- Extremely Fast 3-Second Heat-up Time for Smallest Applications
- Maximum Precision: Short tip-to-grip distance and optimized tip shape provide maximum precision during the soldering process.
- Clear Identification of Smart Tips
- Full Process Control with Tip Lock Function
- Full Traceability with Tip ID Number and Integrated Data Storage
- Accurate Data Results with Tip-Offset Function
- Fast, Safe and Easy Tip Exchange
- Maximum Protection:(IPC industry standards TM-650 2.5.33)
- Tool Compatibility:
  For use with WXMPS MS smart soldering iron and WXsmart soldering station

## **TECHNICAL DATA**

Length	0.8 in
Mil-Spec	Yes
Tip Angle	30°
Tip Range	Smart RT Pico
Tip Shape	Conical
Tip Type	MS
UPC	037103369017
Works With	WXMPS MS
Product Family	SMART RT Nano/Pico Active Tips
