

RTPS 025 K MS

Item No: T0050111999 RTPS Pico Soldering tip, knife 2.5 mm, MIL-SPEC

KEY FEATURES

- For all Nano/Pico Applications with smallest Component Sizes:

 Smart high-performance tips for the smallest component work under the microscope: 0402 to 01005 (XS to S)
- Extremely Fast 3-Second Heat-up Time for Smallest Applications
- Maximum Precision: Short tip-to-grip distance and optimized tip shape provide maximum precision during the soldering process.
- Clear Identification of Smart Tips
- Full Process Control with Tip Lock Function
- Full Traceability with Tip ID Number and Integrated Data Storage
- Accurate Data Results with Tip-Offset Function
- 🛟 Fast, Safe and Easy Tip Exchange
- Maximum Protection:(IPC industry standards TM-650 2.5.33)
- Tool Compatibility:
 For use with WXMPS MS smart soldering iron and WXsmart soldering station
