RTMS 002 C L MS

Item No: T0050108199
RTMS Micro tip, conical, long Ø 0.2
mm, MIL-SPEC

KEY FEATURES

- Perfect for All Micro and Standard Applications for micro and standard component sizes:
  Smart high performance active tips for micro and standard components: 0504 to 1608 (M to L)

- Extremely Fast 5-Second Heat-up Time

- Maximum Precision:
  Short tip-to-grip distance and optimized shape provides maximum precision during the soldering process.

- Wide Tip Range for Every Application:
  More than 40 smart universal soldering tip shapes and sizes that are connectable to just one soldering iron, with no need for additional tools.

- Clear Identification Smart Tips

- Full Process Control with Tip Lock Function

- Full Traceability with Tip ID Number and Integrated Data Storage

- Accurate Data Results with Tip-Offset Function

- Fast, Safe and Easy Tip Exchange

- Maximum Protection:
  (IPC industry standards - TM-650 2.5.33)

TECHNICAL DATA

Length	7.3 in
Mil-Spec	Yes
Tip Range	Smart RT Micro
Tip Shape	Conical
Tip Type	MS
UPC	037103369536
Works With	WXMPS MS
Product Family	SMART RT Micro Active Tips
