

## **RTMS 004 C MS**

Item No: T0050115399

RTMS Micro tip, conical Ø 0.4 mm,  
MIL-SPEC

## KEY FEATURES

- + Perfect for All Micro and Standard Applications for micro and standard component sizes:  
Smart high performance active tips for micro and standard components: 0504 to 1608 (M to L)
- + Extremely Fast 5-Second Heat-up Time
- + Maximum Precision:  
Short tip-to-grip distance and optimized shape provides maximum precision during the soldering process.
- + Wide Tip Range for Every Application:  
More than 40 smart universal soldering tip shapes and sizes that are connectable to just one soldering iron, with no need for additional tools.
- + Clear Identification Smart Tips
- + Full Process Control with Tip Lock Function
- + Full Traceability with Tip ID Number and Integrated Data Storage
- + Accurate Data Results with Tip-Offset Function
- + Fast, Safe and Easy Tip Exchange
- + Maximum Protection:  
(IPC industry standards - TM-650 2.5.33)

## TECHNICAL DATA

|                |                            |
|----------------|----------------------------|
| Length         | 0.8 in                     |
| Mil-Spec       | Yes                        |
| Tip Range      | Smart RT Micro             |
| Tip Shape      | Conical                    |
| Tip Type       | MS                         |
| UPC            | 037103370105               |
