WE1010NA Shield Kit 120V

Item No: WE1010NAS
Soldering Station WE1010NA and ZeroSmog Shield Bundle

For a seamless and health-conscious soldering experience, Weller bundled its best seller WE1010NA soldering station with the new ZeroSmog Shield single filtration unit. This easy-to-use soldering bundle not only ensures precision in your soldering projects, but also prioritizes your health. The advanced filtration system efficiently captures and removes harmful fumes and particles, protecting the operator's respiratory health. With adjustable temperature control and an ergonomic design, this soldering station offers ease of use, making it ideal for beginners and seasoned professionals alike. Get your project soldered and breathe easy.

KEY FEATURES

- 70 W soldering powerhouse with fast heat-up and recovery times
- 70 W Soldering Iron with toolless tip change for more precision
- Digital LCD screen and easy navigation for temperature and includes stand-by mode
