

Soldering station digital, 70W/120V, US

Item No: WLSKD7012A
Weller® 70W Digital Soldering Station, 120V

Weller’s 70-Watt Digital Soldering Station is highly efficient and flexible for all of your soldering tasks, with a compact design that takes up far less space. The station includes a precise and adjustable temperature control that heats up in only 15 seconds, memory function for preset temperatures, and an energy-saving standby mode. With its ergonomic molded pencil grip that provides you with the comfort, precision and control you need, you have the ability to work at your best, anytime, anywhere!

YOUR BENEFITS

- Performance
  Fast 15-second heat-up time from 212˚F to 650˚F
- Easy to use
  Adjust your temperature display (°F or °C), preset temperature or set to standby mode
- Precision and control
  Ergonomic molded pencil-grip provides optimal comfort
- Integrated safety rest
  Reduce the risk of injury or damage when not in use
- Quick Tip Change
  Easily replace worn tips or change applications
- Easy Tip Access
  Built-in tip holder provides on-board storage and easy access to your tips during soldering
- Versatile
  Full range of tip designs – conical, chisel or screwdriver – perfect for intricate soldering applications
- Includes
  Digital Soldering Station, 70-Watt Soldering Iron, 2.4mm Screwdriver Tip (WLTS24IR70), 1.6mm Screwdriver Tip (WLTS16IR70), and 0.8 Conical Tip (WLTC08IR70).

TECHNICAL DATA

Power	70 W
UPC	037103364326
Voltage	120V
Product Family	Variable Wattage Power Grip Soldering Iron Stations
