

## FT91000047

Artículo No.: FT91000047

Welcome to a new era in electronics manufacturing, where clean air is not just a perk, it's a necessity. It's the driving force behind increased productivity, healthier workers, and a better bottom line. The state-of-the-art ZeroSmog Shield Pro solder fume extraction system is designed to revolutionize your individual workstation. Breathe clean air at your workbench while you work on your next soldering task with the Weller ZeroSmog Shield Pro, a true filtration unit that keeps your work environment clean and fresh. Its compact design, which can be stacked with soldering stations, helps maximize your workspace. With the ZeroSmog Shield Pro, you can breathe easy and focus on your soldering.

### KEY FEATURES

- + EPA E 10 filter  
Combined filter, particle and gas
- + Gas filtering
- + From activated carbon impregnated foam
- + Large filter surface area

## DATOS TÉCNICOS

Dimensiones L x An x Al	140 x 140 x 23 mm 5.5 x 5.5 x 0.9 In
UPC	037103376077
Peso (Catálogo)	80 g
Product Family	Filtros de reemplazo de cero smog
